(1) adopt rules and act as necessary to control, eradicate, or prevent the introduction, spread, or dissemination of contagious or infectious diseases of bees;	(1) adopt rules and act as necessary to control, eradicate, or prevent the introduction, spread, or dissemination of diseases, pests, or unwanted species of bees;
(2) prohibit the shipment or entry into this state of bees, honey, combs, pollen, or other items capable of transmitting diseases of bees from another state, territory, or foreign country except in accordance with rules adopted by the inspector; and	(2) prohibit the shipment or entry into this state of bees, honey, combs, pollen, or other items capable of transmitting diseases, pests, and unwanted species of bees from another state, territory, or foreign country except in accordance with rules adopted by the inspector;
(3) seize and order the destruction, treatment, or sale of a colony of bees, equipment, pollen, or honey that is determined to be diseased, infectious, abandoned, or in violation of this chapter or a rule or quarantine adopted under this chapter.	(3) seize and order the destruction or treatment of a colony of bees, equipment, pollen, or honey that:
	(A) is determined to be diseased or infectious;
	(B) contains unwanted species of bees or pests; or
	(C) is in violation of this chapter or a rule or quarantine adopted under this

	chapter; and
	(4) seize and order the destruction, treatment, or sale of a colony of bees, equipment, pollen, or honey that is determined by the inspector to be abandoned.*
(b) For purposes of this section, apiaries, equipment, or bees are considered infectious if:	(b) For purposes of this section, apiaries, equipment, or bees are considered infectious if:
(1) the bees are not hived with movable frames or stored so as to prevent the possible spread of disease; or	(1) the bees are not hived with movable frames or not stored so as to prevent the possible spread of disease or pests; or
(2) the bees, equipment, or apiary generally comprise a hazard or threat to disease control in the beekeeping industry.	(2) the bees, equipment, or apiary generally comprise a hazard or threat to disease control in the beekeeping industry.
Amended by Acts 1983, 68th Leg., p. 1884, ch. 350, Sec. 1, eff. Sept. 1, 1983; Acts 1985, 69th Leg., ch. 418, Sec. 2, eff. Sept. 1, 1985.	
Sec. 131.022. QUARANTINES.	**
(a) If the chief apiary inspector determines that the public welfare requires the establishment of a quarantine, the inspector may:	(a) If the chief apiary inspector determines that public welfare or protection of the beekeeping industry requires the establishment of a quarantine, the inspector may:
(1) declare a protective quarantine of a district, county, precinct, or other defined area in which a disease of bees or a deleterious exotic species of bees is not known to exist or in which the disease or exotic species is being eradicated in accordance with this subchapter; or	(1) declare a protective quarantine of a district, county, precinct, or other defined area in which a disease of bees, a pest of bees, or an unwanted species of bees is not known to exist or in which the disease, pest, or unwanted species of bees is being eradicated in accordance with this subchapter; or
(2) declare a restrictive quarantine of a district, county, precinct, or other defined area in which a disease of bees or a deleterious exotic species of bees is located.	(2) declare a restrictive quarantine of a district, county, precinct, or other defined area in which a disease of bees, a pest of bees, or an unwanted species of bees is located.
(b) A person may not move or ship bees, equipment, pollen, or honey into or out of an area quarantined under this section, except in accordance with rules adopted by the inspector.	<unchanged>
	(c) On request from a beekeeper, the inspector may grant an exemption to a quarantine imposed under this section. The inspector may adopt rules for submitting requests and granting exemptions under this subsection.
	(d) A beekeeper directly affected by a quarantine imposed under this section may petition the director for a review of the inspector's quarantine order or the inspector's denial of the beekeeper's request for exemption under Subsection (c). The request must be in writing and filed with the director not later than the 30th day after the date the quarantine is initiated or the beekeeper receives notice that the exemption request is denied, as applicable.
Amended by Acts 1983, 68th Leg., p. 1884, ch. 350, Sec. 1, eff. Sept. 1, 1983; Acts 1985, 69th Leg., ch. 418, Sec. 2, eff. Sept. 1, 1985.	<unchanged>
Sec. 131.023. SALE OF QUEEN BEE AND ATTENDANTS, PACKAGE BEES, AND NUCLEI.	**
A person may not sell or offer for sale a queen bee and attendant bees, package bees, nuclei, or queen cells in this state unless the bees are accompanied by:	(a) Except as provided by Subsection (b), a person may not sell or offer for sale a queen bee and attendant bees, package bees, colonies, nuclei, or queen cells in this state unless the bees are accompanied by a certificate of inspection that certifies that the bees are apparently free from disease and pests based on an actual inspection conducted not more than 12 months before the date of the sale.

	(b) This section does not apply to a person who annually sells less than:
	(1) a total of 25 queen bees, packages of bees, colonies, and nuclei; and
	(2) 100 queen cells
(1) a copy of a certificate from the chief apiary inspector certifying that the apiary from which the queen bee was shipped has been inspected not more than 12 months before the date of shipment and found apparently free from disease; or	<deleted>
(2) a copy of an affidavit made by the beekeeper stating that:	<deleted>
(A) to his knowledge, the bees are not diseased; and	<deleted>
(B) the honey used in making the candy contained in the queen cage has been diluted and boiled for at least 30 minutes in a closed vessel.	<deleted>
Amended by Acts 1983, 68th Leg., p. 1884, ch. 350, Sec. 1, eff. Sept. 1, 1983; Acts 1985, 69th Leg., ch. 418, Sec. 2, eff. Sept. 1, 1985.	
Sec. 131.024. SEIZURE OF BEES, EQUIPMENT, POLLEN, OR HONEY.	
(a) Bees, equipment, pollen, or honey seized by the chief apiary inspector under Section 131.021 of this code shall be treated, destroyed, or sold at public auction.	<unchanged>
(b) At least five days before an item seized under Section 131.021 of this code may be treated, destroyed, or sold, the inspector shall send by certified mail, return receipt requested, written notice of the proposed disposition of the item to the last known address of the beekeeper or the owner of the item. The notice must describe the item, the proposed disposition of the item, and the reason for the disposition. If the name or address of the beekeeper or owner of the item is unknown, the inspector shall:	(b) Before an item seized under Section 131.021 may be treated, destroyed, or sold, the inspector shall provide written notice of the proposed disposition of the item to the beekeeper or the owner of the item in the manner provided by Subsection (b-1) or (b-2). The notice must describe the item, the proposed disposition of the item, and the reason for the disposition.
(1) publish notice of the proposed disposition for at least five consecutive days in a newspaper of general circulation in the county where the property was seized; or	(b-1) The inspector shall, not later than the fifth day before the proposed disposition date:
(2) post notice of the proposed disposition for at least five consecutive days in three public places, including the door of the county courthouse, in the county where the property was seized. A person may apply for a permit at any time, but a person must apply for a permit before the 10th day preceding the date of the shipment if the person does not hold a permit on that date. An application for a permit must include all information required by the chief apiary inspector.
(1) a complete description of the shipment;	(b-1) A permit issued under this section applies to all shipments made by the beekeeper and expires on August 31 following the date the permit is issued.
(2) the destination of the shipment;	(b-2) For a shipment originating outside this state:
	(1) a certificate of inspection signed by the official apiary inspector or entomologist of the state, territory, or country from which the bees are to be shipped is required before the shipment may enter the state; or
	(2) the chief apiary inspector of Texas must have inspected the

	shipment not more than 12 months before the date of the shipment.
(3) the approximate date of the shipment;	<deleted>
(4) the names and addresses of the consignor and consignee; and	<deleted>
(5) a certificate of inspection signed by the official apiary inspector or entomologist of the state, territory, or country from which the bees are to be shipped.	<deleted>
(c) A certificate of inspection for a permit required by Subsection (b)(5) of this section must certify that the bees or equipment are apparently free from disease based on an actual inspection conducted not more than 12 months before the date of the shipment. If the bees or equipment are to be shipped into this state from a state, territory, or country that does not have an official apiary inspector or entomologist, the person shipping the bees or equipment may provide other suitable evidence that the bees and equipment are free from disease.	(c) A certificate of inspection for a permit required by Subsection (b-2) must certify that the bees or equipment are apparently free from disease and pests based on an actual inspection conducted not more than 12 months before the date of the shipment. If the bees or equipment are to be shipped into this state from a state, territory, or country that does not have an official apiary inspector or entomologist:
	(1) the person shipping the bees or equipment may provide other suitable evidence that the bees and equipment are free from disease and pests; or
	(2) the bees may be shipped into this state under quarantine and the person receiving the shipment shall have the bees inspected not later than the 30th day after the date the bees enter this state.
(d) If a person files an application in accordance with Subsection (b) of this section and the inspector is satisfied that the shipment does not pose a threat to disease control in the beekeeping industry, the inspector shall issue a permit authorizing the shipment.	(d) If a person files an application in accordance with Subsection (b) and the inspector is satisfied that the shipment does not pose a threat to disease or pest control in the beekeeping industry, the inspector shall issue a permit authorizing the shipment.
(e) This section does not apply to a shipment of live bees in wire cages without combs or honey.	(e) This section does not apply to a shipment of package bees.
	(f) The inspector shall charge a fee for each permit issued under this section. The inspector shall set the fee at an amount that is reasonable in relation to the costs of administering this section.
	(g) An individual who is exempt from registration under Section 131.045 is exempt from the permit fee charged under Subsection (f).
